World of Choices

Empower the next generation of Canadian leaders, innovators and entrepreneurs by introducing them to inspiring career mentors.

World of Choices is an interactive event that equips students in grades 8-12 with the skills and knowledge they need to be better prepared for the future. Youth across Canada learn from inspirational speakers and participate in small groups discussions with passionate career mentors. Each event includes a feature on skilled trades opportunities in construction, manufacturing and automotive.

About a World of Choices Event

- Events may be in person or online and run for a minimum of 2 hours (varies by location)
- Each event includes inspirational speakers
- Students participate in small group discussions with career mentors
- Event participants have the opportunity to participate in a career fair or showcase of career paths which may be in person or online (varies by location)
- Teachers/educators receive a post-event package with additional resources

Key Learning Objectives

By participating in a World of Choices event, students will:

- Recognize how transferable skills including communication, creativity, digital literacy, adaptability and financial health can enable career success
- Explore potential career pathways including opportunities in skilled trades categories (construction, manufacturing and automotive)
- Be empowered to succeed in designing a career path
- Discover educational opportunities and training
- Be equipped with the skillset and mindset for the future of work
- Increase their understanding of education, training pathways, and skills required for various careers
- Understand how to build a plan to acquire the skills, education and training needed for future work

JA programs are developed with input from teachers and support various educational priorities and goals.

I like learning about different careers from people who worked there, hearing pros and cons, and deciding if that path is for me or not.
