Economics for Success

Help students prepare for the world of work, and give them the financial tools they need to thrive!

Inspiring students in grades 8-10 to stay in school, students take a closer look at the advantages of continued education, as well as learn what's needed to succeed in today's workforce. Payroll deductions and taxes help students understand how their work helps pay for public infrastructure and services.

Volunteer-Led Programs

- ◀ JA volunteer(s) facilitate the program activities adding their industry knowledge and perspective to the lessons
- ◀ Programs are offered in-class, virtually or live as permitted
- ◀ Teacher manages access and supervises students during the program
- ◀ Timing and duration of program is flexible

Teacher-Led Programs

- ◀ Teachers can facilitate the program activities and lessons directly with their students or monitor their students while they work independently
- ◀ JA will provide support and access to the program resources through the JA Campus
- ◀ Teachers can lead the program at their own pace
- ◀ Programs usually take 2-6 hours to complete

Economics for Success**

Key Learning Objectives

After completing the program, students will be prepared to:

- Consider how staying in school and exploring post-secondary options can help them to achieve success
- Understand what life is like after high school
- Map their interests, skills, and passions to possible careers
- Network, identify a mentor, and create a strong personal brand
- Create a budget to help prepare them for the financial reality of post-secondary life
- Develop strategies that will help them achieve their goals

I made the decision to go to university and pursue business, and JA was a critical turning point because I had absolute confidence that this is what I wanted to do.

— Alison L., JA Alumni
