## SUCCESS SKILLS

### Work Readiness

### Grades 8-10

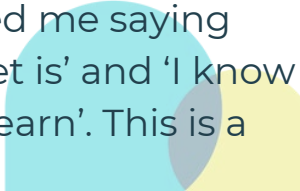

**Program Options:** Facilitated by a JA Volunteer | Teacher-led | Self-Directed Online

By participating in JA's newly updated Success Skills program, students in grades 8-10 will identify and build a toolkit of transferable skills that will enable them to increase resilience and improve outcomes through challenging situations.

### Learning Experience Highlights of the *Success Skills Program*

- Define what success looks like
- Identify effective communication practices and techniques
- Learn how to empathize with others for engagement and connection
- Develop an awareness of critical thinking and problem-solving skills
- Understand the importance of continued skill acquisition

So many of the kids came up to me and thanked me saying things like: 'I understand what a growth mindset is' and 'I know how to locate my skills and what I still need to learn'. This is a valuable program and the content is fantastic.

-JA Volunteer

## JA programs are available at no cost to educators, youth or parents

- Programs may occur in-person or virtually (based on location)
- Program length is flexible and can range from 2-6 hours
- By running the program with their class, educators can facilitate activities at their own pace to accommodate/allow for integration into instructional time *and* achieve curriculum objectives and learning goals
- JA volunteers who facilitate the program share their knowledge and perspectives relevant to the activities
