OUR COUNTRY

Entrepreneurship

Grades 4-6

Program Options: Facilitated by a JA Volunteer | Teacher-Led

Students learn about Canada's technological past and present, as well as share ideas that could become our next great innovation.

Learning Experience Highlights of the *Our Country Program*

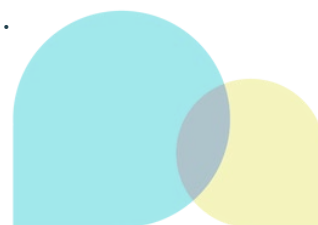

- Identify the impact of technological innovation on businesses and society
- Identify Canadian inventors and their inventions
- Describe the impact of modern inventions on Canadian society
- Describe changes in Canadian society and business as a result of innovation
- Brainstorm possible future technologies

I learned about interesting technologies
and ideas that help people all over Canada.

-Grade 6 Student

JA programs are available at no cost to educators, youth or parents

- Programs may occur in-person or virtually (based on location)
- Program length is flexible and can range from 2-6 hours
- By running the program with their class, educators can facilitate activities at their own pace to accommodate/allow for integration into instructional time *and* achieve curriculum objectives and learning goals
- JA volunteers who facilitate the program share their knowledge and perspectives relevant to the activities

Contact your local JA office to register and learn about opportunities in your community.

Visit jacanada.org to learn about national JA program options for student in grades 3-12.

Register for an online program or access the JA bite-sized learning experiences at jacampus.org.
